SUMMARY

I am an ambitious junior developer looking for an internship where I will use my Python skills and creativity to help the company perform and reach his goals. I'd like to be a part of a dynamic team that develops projects and applications.

TECHNICAL SKILLS

HTML, CSS, Python, PostgreSQL, Django, Javascript, JSON

TECHNICAL PROJECTS

The hostel-rental - [GitHub]

I made an application for people who are looking for an apartment to rent. It puts owners and people who are searching in contact.

- Utilized input forms (with csrf_tokens security) to store encrypted user information client-side.
- Utilized Django functions like GetObjectorCreate, HttpRedirectRespons, Redirect
- Django's classes generic views (ListViews and DetailsViews)
- Queryset methods like: filters (__gt, __lt, order_by)
- Utilized three models classes (one to many)
